Importance: High

This is the only thing I can find related to your FOIA. As you can see, it was sent to me in error, and I forwarded to the proper Gregory Giddens.

-Greg G.

 Subject: Agency Reform Plan Update from Morning Meeting 6/13/17 - DUE TO VA

BLUF: (b) (6), please send these documents, if cleared, to Greg Giddens soonest as he is holding a meeting to discuss

with Principals and their designees tomorrow at 10 am (see attached evite).

Small Group, attached please find the most current consolidated feedback from you and your teams on the DRAFT Agency Reform Plan. This update is being sent to you as Lisa requested that DUSHes review the documents provided this morning and provide additional feedback by 2pm. The attached documents include feedback received up until about 5pm this evening.

We received several documents which did not conform to the requested format so we did our best to include all comments and stratify considering time constraints. REMINDER THAT THIS IS A DRAFT.

There were several comments received about Primary Care and GEC integration – those comments will not be sent to VA as the inclusion of this recommendation was based on a transcription error from DW2. This is actually two recommendations – that Primary Care consolidate, and that GEC consolidate. Most of the comments on this matter were urging caution in merging PC and Geri and are thus not strictly applicable.

Attached documents (numbered in the titles for ease of tracking):

1 - 20150609 Draft June Agency Reform Plan with VHA Edits v2: This document contains text added directly to the document in RED font which represents the approved (b) (6) recommendations emerging from Design Workshops 1 and 2, and Leadership Forums 1 and 2. This text describes the VHA Modernization Effort, the 4 programs which were identified for consolidation, and a brief description of the TRICARE consolidation into VA.

2 - 20170613 Agency Reform Plan Summary of VHA Substantive Issues: This document summarizes substantive issues noted. A few of the comments reflect a lack of insight regarding the VHA Modernization process or are quite detailed; if this is noted, our team will reach out to those PO's. Request that the DUSHeinue to regularly brief your teams on the progress and methodology of the Modernization effort as this is discussed regularly at small group.

3 - 20170613 Draft Agency Reform Plan VHA Comments Matrix _ Recommendations_v12: This document displays on tab one the specific comments made using the VA form, and on tab two additional information to assist the VA folks in tracking.

4 - 20170607 Modernization Plan June Deliverable_TRICARE Integration with VHA references added: This is the most current iteration of the TRICARE moving into VA document, with references.

Thank you, (b) (6)
